

COOKIES CONFIGURATION PANEL

From this panel you can configure the cookies that the website can install in your browser, except the technical or functional cookies that are necessary for navigation and the use of the different options or services offered.

The selected cookies indicate that the user authorizes the installation in your browser and the processing of data under the conditions reflected in the Cookies Policy.

The user can mark or unmark the selector according to the wish to accept or reject the installation of cookies.

HOW TO MANAGE COOKIES FROM YOUR BROWSER

Delete cookies from your device	Cookies that are already on a device can be deleted by clearing the browser history, thus deleting the cookies from all websites visited. However, some of the saved information (e.g. login data or website preferences) may also be lost.
Manage site specific cookies	For more precise control of site specific cookies, users can adjust their privacy settings and cookies in their browser.
Blocking cookies	While most modern browsers can be configured to prevent cookies from being installed on a device, this may require the manual adjustment of certain preferences each time a site or page is visited. In addition, some services and features may not work properly (for example, profile logins).
